## Monet's Garden

### ***To Be a Frog in Monet's Garden***

#### **June 21- 25 and June 28 – July 2 Pre-Primary/Kindergarten Camps**

Leap into the world of Monet's garden. Children will learn about the life cycle of a frog through hands on experience with tadpoles and frogs in our outdoor classroom. They will have the opportunity to care for, cut, arrange and paint flowers in our garden as Monet once did. Indoors, the class will focus on the artist Monet, his paintings and his home country of France in a traditional Montessori setting.

### ***To Be an Artist in Monet's Garden***

#### **July 12 – 16 Kindergarten Camp**

Children will become artists as they explore the techniques used by artists such as Monet, Degas, Seurat and Morisot. They will experience textures and colors in our garden and express their discoveries in various media. The children will participate in an in-depth study of the frog, its life cycle and habitat. Indoors, the class will focus on the language, geography, inventors and culture of France in a traditional Montessori classroom.

**We strongly encourage all entering kindergarten students attend this camp. It will give them an opportunity to bond with their teacher and fellow students who will be traveling with them through their kindergarten year. They will also be spending time learning with our graduating students as well!**
